ENOVAX WINS SPBA PROMISING BRAND AWARD 2016 "A NIGHT OF JUBILATION"

28 October 2016 was a special night for ENOVAX. A night of jubilation and celebration as our CEO Mr. Erwin Foo marched briskly onto the stage at Ritz-Carlton Millennium Hotel to receive the Singapore Prestige Brand Award 2016 (Promising Brands category) from Mr. Masagos Zulkifli, Minister for the Environment and Water Resources. With this win, ENOVAX marked yet another proud milestone as the company closed in on its sixth year of operations.

Celebrating 15 years of advocating local brands excellence, "SINGAPORE PRESTIGE BRAND AWARD (SPBA) is an initiative by the Association of Small & Medium Enterprises (ASME) and the popular Chinese Daily LIANHE ZAOBAO that promotes and showcases business luminaries in Singapore who stay on the forefront of branding. Their vision is to showcase business leaders at different stages of their branding journey and the achievement of new milestone in branding excellence.

Wining this prestigious brand award on our first attempt, our CEO Mr. Erwin Foo attributed the success to a well conceived,

strategized and presented overall branding proposal coupled with a strong service delivery team who is totally committed to living up to our brand promises and reputation. Going forward, the company is motivated to grow the brand on the international platform and bring it to a higher plane of recognition. Just prior to receiving the Promising Brands Award, Mr. Erwin Foo has made a week-long business trip to Switzerland to negotiate and firm up deals with internationally renowned IT partners to develop and offer more state-of-the-art IT enterprise solutions.

Joining ENOVAX to celebrate and share the joyous occasion at the SPBA Award 2016 Presentation Gala Dinner, attended by corporate honchos and captains of industries, were key representatives from Golden Village and Sentosa Development Corporation - the very organizations (amongst others) that helped ENOVAX achieve the award through exciting and innovative business collaborations that rigorously challenged ENOVAX team to come up with unprecedented IT enterprise solutions.

SPBA AWARDS PRESENTATION CEREMONY – PHOTORAMA

ENOVAX won the Singapore Prestige Brand award (“PROMISING BRANDS AWARD” category) for brands that are established for 3 to 8 years in Singapore. This Award recognizes and honors up-and-coming enterprises, acknowledging their efforts in powering branding as a key strategic tool from the onset of their business strategy.

As a young company with clear ambitions, the Promising Brands Award clearly demonstrates ENOVAX’s aspiration to become our IT industry brand leader. We are deeply appreciative of our clients’ confidence and partners’ support. We are indeed happy

to satisfy this year’s award theme, “Elevating resilient brands to greater heights” which seek to identify and acknowledge successful and resilient brands which have scaled new heights in today’s competitive business landscape.

A Gala Dinner & Award Presentation Ceremony was held on Friday, 28 October 2016 at the Ritz-Carlton Millennium Hotel where ENOVAX CEO Mr. Erwin Foo accepted the winning trophy from the Minister of the Environment and Water Resources, Mr. Magagos Zulkifli. Let us take you through the night’s memorable proceedings & journey.

SPBA AWARDS MEDIA PUBLICITY

In conjunction with the SPBA Awards Presentation Ceremony, Singapore Press Holdings published two Press supplements in The Straits Times (English) and Lianhe Zaobao (Chinese) to honor the Winners. The Association of Small & Medium Enterprises (ASME) also published a Winners Commemorative magazine for the occasion.

ENOVAX was featured in all these three publications, complete with photographs and stories of our company’s branding initiatives and journey.

OSP PARTNERED SII AND MADE A "SPLASH" AT SAFETY & SECURITY ASIA 2016

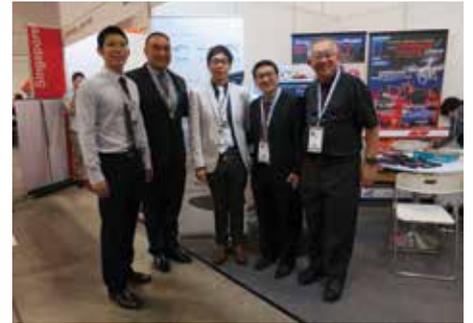

In our latest marketing initiative, Onestop Security Platform Pte Ltd (OSP) partnered Security Industry Institute (SII) in an "integrated security service" Portal project which was showcased at the SAFETY & SECURITY ASIA 2016 Exhibition and SECURITY INDUSTRY CONFERENCE 2016 held at the Marina Bay Sands Exhibition & Conference Centre from 28 – 30 September 2016.

At this 15th International Safety & Security Technology & Equipment Exhibition, OSP is part of the SII's exhibit highlight called "SECURITY LEARNING KIOSK" which provides security personnel to use OSP Portal for career advisory & progression, amongst others.

Defined as "kiosk of Opportunities", the Security Learning Kiosk is equipped with the option to enable multiple functions and collaborative efforts, invariably allowing SII to promote a community of practitioners within the security industry.

Guest-of-Honor at the Opening Ceremony on 29 September 2016, Mr. Teo Ser Luck (Minister of State, Ministry of Manpower) stopped by at SII booth to view the Security

Learning Kiosk and had a lengthy dialogue with SII and OSP Representatives. OSP's Mr. Randy Chua briefed the Minister on the attributes of OSP Portal and the long-term roadmap of OSP in striving to be the catalyst for raising the standards and professionalism of the local security industry.

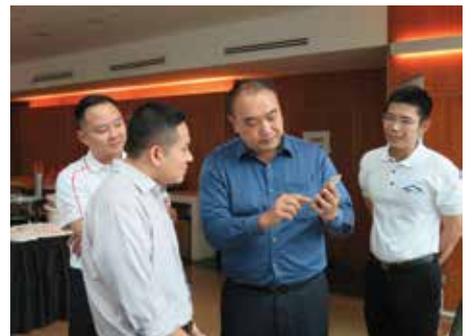

OSP MAKING MARKET PRESENCE

As social media is widely accepted and recognized as the norm for business communication, OSP produced a series of video clips featuring "live" testimonials of three security officers sharing their experiences using OSP Portal to their advantage.

The videos were recorded in English, Malay and Mandarin to reach out to a wider audience. Response to our initial blast of the videos on Facebook has been most encouraging.

Onestop Security Platform Pte Lts (OSP) participated in M.Sanji Education 2016 Ceremonial event at NTUC Centre on Wednesday, 23 November 2016 organized by the Union of Security Employees (USE).

Some 320 awards were given out to deserving children of security officers and the Guests of honor were Mr. Zainal Sapari, Chairman, Security Tripartite Cluster and Mr. Amrin Amin, Parliamentary Secretary, Ministry of Home Affairs.

ENOVAX MAKES FOOT-PRINTS IN SWITZERLAND

ENOVAX Looks Overseas For Organic Growth

As ENOVAX gains recognition and establishes itself as an IT Enterprise Solution Domain knowledge leader in the digital business world, CEO Mr. Erwin Foo prepares for expansion plans which includes partnering International Brand Names to accelerate the company's growth.

In this connection, Mr. Erwin Foo recently concluded a week-long trip to Switzerland to meet and firm up collaborations with two IT giants, MAGNOLIA and AXON IVY in Basel & Lucerne respectively. He arrived in Zurich as the weather was nearing Autumn with rapidly plunging temperatures and started his business journeys immediately.

It was a productive and fruitful trip and the Top & Senior Management Teams from both companies were totally committed and enthusiastic with the carefully scheduled meetings. Clients can now look forward to ENOVAX's wider range of IT business solutions to grow their businesses.

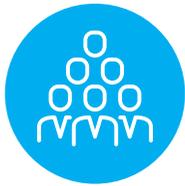

TRAINING BY AXON IVY EXPERT

Mr. Clemens Schiller, Axon Ivy Training expert from Vienna, Austria spent 3 days at ENOVAX headquarters in Singapore on 9th, 10th and 14th November 2016 to impart his knowledge on **Axon.ivy Designer & Axon.ivy engine** to help train our Senior Management staff, Steven Lo (Chief Architect) and Davis Zheng (Senior Software Consultant) in the area of the functionality of their products.

The **Axon.ivy Designer** is a sophisticated, cutting edge process modelling tool that enables turning a company's business processes into real and fully functional web applications. With this, a business can easily integrate its existing systems using standard connectors such as web services, SQL and many more.

With the **Axon.ivy Engine**, it is possible to run a company's designed business processes on a single or clustered application server based on Java.

EXPANSION WARRANTS NEW GROUP PHOTOGRAPHS

In the past one year, ENOVAX has aggressively been working on its building blocks of growth. In view of the potential expansion in IT business solution services and technological products integration, the company is gearing up with a more dynamic team to satisfy customers' needs.

As the building blocks take shape, the operation team also expands in response. ENOVAX's associate company OSP, at the same time, also increases its manpower resources as OSP develops its Portal business. Together, the paradigm shift in the size of ENOVAX family warrants new Group photographs to acutely portray the company's current size.

QUARTERLY PRODUCTIVITY WINNERS

In the last Quarterly Productivity winners, a new team of ENOVAX staff were rewarded and commended for their outstanding performance in service delivery.

Shopping vouchers were presented to the deserving recipients, KC Koh, Kae Yee and Jennlyn for the Quarterly Productivity Awards. Special Merit Awards were also given to Fandy Sutrisno and Chua Hong Year.

ENOVA CELEBRATES CHRISTMAS

The festive season is a time for joyous celebrations and sharing. This is the time of the year when companies take the opportunity to acknowledge the efforts of their employees who contributed to their success. This is the most opportune time in the calendar to send greetings and best tidings as the year come to a close.

ENOVA is no exception. Yearly, we take pride in extending our best wishes to our employees, customers and business partners for the Christmas and New Year holidays. Our Senior Web Designer Lim Wen Shing came up with two cheery designs for our ENOVA Facebook Cover Banner which will grace our Facebook postings from mid November 2016 to the first week of January 2017.

(A corporate Christmas Party has been organized for 16 December and the celebratory photographs will be featured in our next issue of E=MAX).

RECENT BIRTHDAY CELEBRATIONS

A corporate welfare feature at ENOVA, staff birthdays are celebrated in sharing their joy in the office where everyone partakes in singing birthday songs and cake cutting ceremonies.

Recent celebrants included Richard Tan, Collean Chua, Sofia, Steve Chong, Jen, Kae Yee & Kelvin (Oct) and Lim Wen Shing (November).
