

## Birthdays - Occasions to rejoice

ENOVAX Management believes that celebrating staff birthdays as a form of bonding is just as important as working together in harmony for greater success. Group dynamism is a corporate culture that the company consciously advocate to promote closer ties among the multi nationals and ethnic mix of ENOVAX employees.

Throughout the year, staff birthdays are occasions to gather in the office conference room to sing birthday songs (in different

languages), make wishes and cut cakes which come in a variety of shapes, sizes, colors and flavors.

Reflected here are Birthday celebratory photographs taken in different months of the year as management and staff congregated to celebrate and rejoice.

### ENOVAX CELEBRATES LUNAR NEW YEAR AS A BIG FAMILY

As Enovax is now part of a big family under the PUC Umbrella, naturally when it comes to the annual celebration of the Lunar New Year, it becomes a huge family affair. With our multi-national staff and diverse ethnic groups in PUC in Singapore (Enovax, Pictureworks and PUC Singapore), the joy and significance become more profound this year as we gathered on Wednesday, 28 February 2018 to partake in the festive merry-making.

This year, a pair of Southern lions came prancing with vigor and vitality into our office in VERTEX. Accompanied by the popular God of Wealth and a full complement of drums, cymbals and pugilistic crew, the roaring lions "blessed" our entire office - much to the

delight of all staff and onlookers. There were much jubilation and excitement till the crescendo gradually subsided when the lions departed, leaving the auspicious numbers "7172" for punters to bet their luck.

"LO HEI" (also commonly known as "Yu Shen" which is Tossing of Raw Fish Salad for abundance of Good Luck and a Bountiful year of Harvest) was enjoyed by management and staff at Jumbo Restaurant. CEO Erwin Foo took the opportunity to thank all staff for a productive year and wished greater prosperity for all as we go forward in 2018.

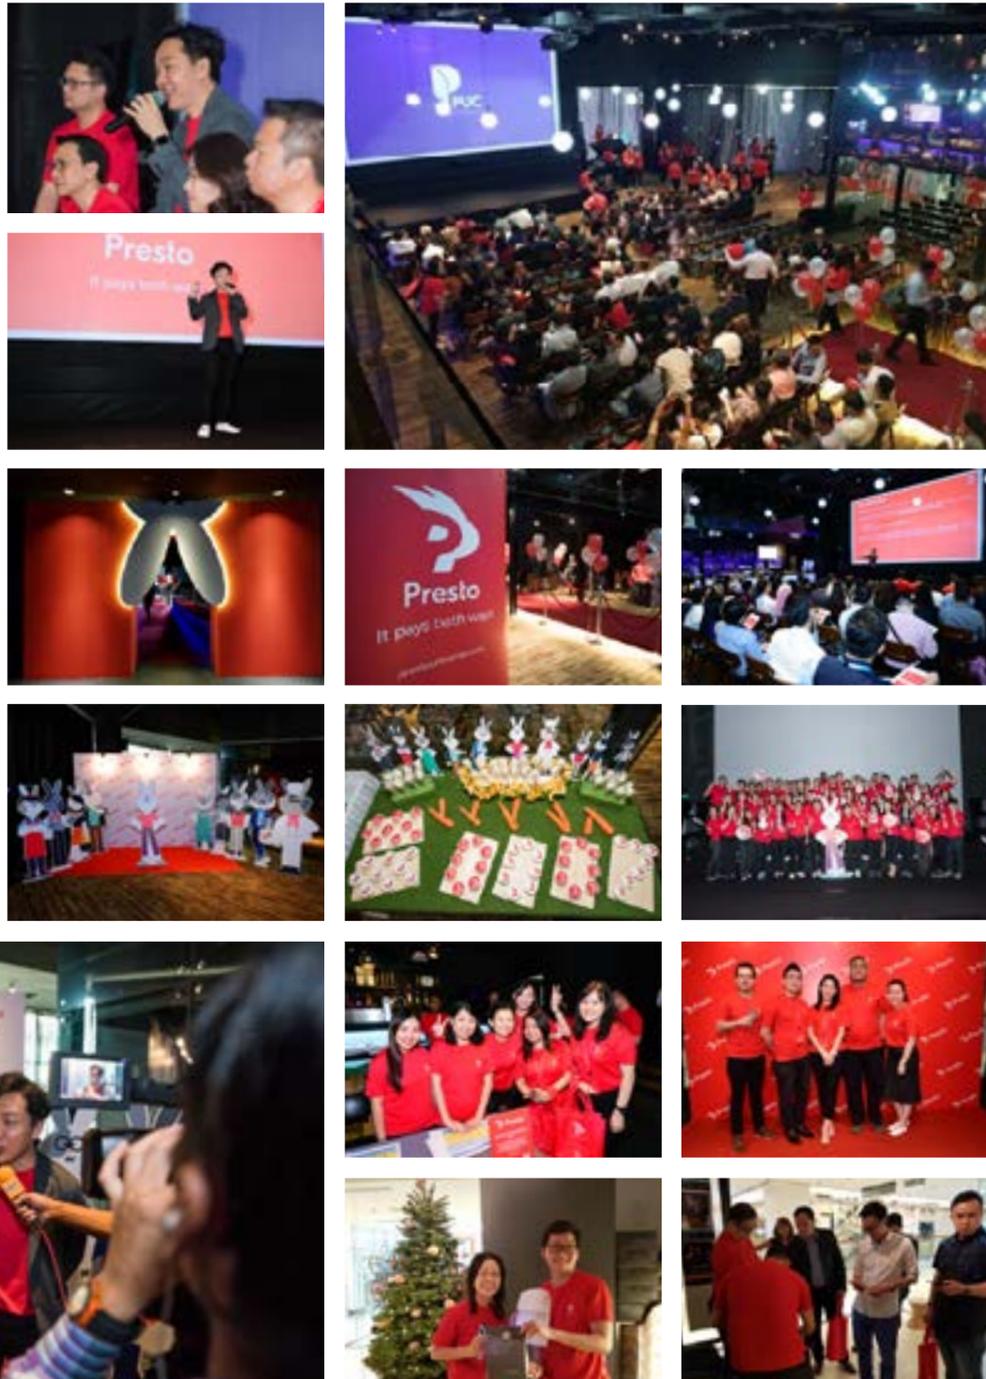

## ENOVAX HELPING “PRESTO” MAKE AN IMPRESSION

From the word “Go”, ENOVAX was in full control of the production proceedings as our IT Team zoomed into full gear and focused on successfully delivering PRESTO (a proprietary social media marketing and e-wallet platform) to PUC Berhad, our parent company and commercial owner of PRESTO.

Despite the tight dead line to meet the official launch date, our Enovax Team, led by our General Manager Ng Wei Ching, diligently raced to the finishing line in style and Enovax brand of efficiency. All systems were in top form on the launch date on 13 December 2017 in Kuala Lumpur and PRESTO made an impressive debut.

PRESTO, a software innovation specially developed by ENOVAX, has taken off with much pomp and pageantry, and is steadily gaining recognition and acceptance in the market since its official launch. This FinTech product is the first in a series of innovative proprietary products that generates maximum returns and rewards to users and marketers via the power of the social media.

Captured here are some images and memories of PRESTO launch in Malaysia and the fanfare and excitement that prevailed amongst PUC management, stakeholders and industry players.

## “PRESTO” THEMED LUNAR NEW YEAR COLLATERALS

As an extension of PUC’s efforts in promoting PRESTO, the company took advantage of the festive period to leverage on its visibility building initiative by introducing a series of special PRESTO themed collaterals.

Creatively designed to reflect the vibrancy of this software product, the collaterals feature the “bunny” as the central theme of a series of six “Good Luck” couplets with auspicious wishes like: Fatten Up Your Wallet; Keep The Money Rolling In; Big Juicy Fortune; Be Blooming Rich; Buckets of Fortune; and Earn From Little work.

The Lunar New Year celebration series include Red Packets (aka Ang Pows) in the design of the PRESTO “Bunny” with pointed ears in an active and alert mode. Completing the entire publicity package is a mini wall poster of the “Bunny” surrounded by gold coins which represent prosperity and abundance.

Produced for distribution specially for the Lunar New Year celebrations, these collaterals were well received by consumers, marketers and industry players alike, signaling the popularity of PRESTO in Malaysia.

### Introducing our New Solution Manager

In recent months at ENOVAX, we have expanded our Team of IT Professionals to handle the influx of new projects secured, in addition to our existing clients’ business requirements and our parent, PUC’s range of software & digital products which we develop. Amongst our new recruits is Alan Qu Hui.

Now a Singapore Citizen, Alan Qu Hui originally hailed from Xi’an, Shaanxi Province, China. He joined ENOVAX as a Solution Manager on 12 September 2017 after an illustrious IT career that spans 9 years in major companies like NCS Pte Ltd, IDA Singapore and NTUC Income.

Alan is no stranger to Singapore. As a young man, Alan crossed into our Island Republic to pursue his tertiary education which culminated in attaining his Bachelor of Engineering in Electrical and Electronic Engineering (with second-class honors) from Nanyang Technological University in 2008 and his Master of Technology in Software Engineering from the National University of Singapore (Institute of System Science) in 2013.

He commenced his IT Profession as a Consultant (Application) in NCS before moving on to IDA Singapore as an Application Team Lead where he was seconded to the Ministry of Manpower (MOM) Information Systems & Technology Department to work on a special system integration project. Alan’s rich work experience includes special assignment at Ministry of Health (MOH), Hospital projects, Financial and Budgeting system, Consultancy Services, Presales and Solutioning, and Personal excellence – all key skills set relevant to ENOVAX’s business scope.

Prior to becoming a member of ENOVAX’s strong IT Team, Alan Qu was the Application Solution Manager at NTUC Income, responsible for the company’s core health insurance system.
