REVAMPED OSP PORTAL READY FOR ROLL-OUT

Onestop Security Platform Pte Ltd (OSP)'s One-stop Security Manpower Portal is now in an aggressive phase of revamp by a dedicated team of IT experts from ENOVAX Pte Ltd, the technology partner and largest shareholder of this ambitious venture. Leading the team is OSP Director Mr. Randy Chua, a former security agency owner and veteran in the security field with more than 20 years of domain knowledge of the security and protection industry. He is assisted by Colin Quek, General Manager, a former Police Officer and Hotel Assistant Security Manager.

One year ago, OSP Portal started off as a neutral platform to address the needs and challenges faced in the private sector security industry due to manpower shortages. Today, our revamped OSP Portal is enhanced with new features and greater capabilities, and will work towards becoming a catalyst to initiate changes for improvements with the support of all stake holders. Going forward, OSP Security Manpower Portal aspires to be a platform to roll out initiatives and programs (with the support/participation of Government agencies and authorities where possible) for upgrading of the security industry in line with the Singapore's aim to be a global city of choice.

The long-term vision of OSP Security Manpower Portal is to evolve into a centralized & coordinated initiative to push for reforms for all stakeholders to collectively participate in changing the image and standards of the security industry in Singapore. The future road map is to address the profile (image and perceptions) of the security profession so as to bring about job pride, dignity and career possibilities, apart from raising the professional security bar in support of Singapore's aspiration to be a "safe" global city for continued foreign investments and trade.

In view of the importance of the role the Portal can play in the security industry, Onestop Security Platform Pte Ltd is committed to working closely with ENOVAX to create a powerful security manpower solution portal and help mitigate the acute labor shortage problem, increase productivity and raise the image of the security trade.

Through our OSP Portal, Alex Chua secured a job as Security Officer with a leading security agency and one year later he was promoted to Chief Security Officer (CSO). Deeply grateful and pleased with the efficiency of our OSP Portal, he wrote in to express his sincere appreciation.

ENOVAX PROJECTS ROUNDUP IN 2015

"Another Eventful Year"

As ENOVAX Pte Ltd enters its sixth year of operations in Singapore, the company continues its efforts in delivering world-class service amidst rising customers' expectations and fierce market competition.

Despite economic uncertainty ahead, ENOVAX managed to have a healthy order book for the first half of 2016. Looking back in 2015, we are pleased that our team has successfully delivered a strong line-up of projects for many branded clients.

Here's a quick look at our representative works:

Nexia TS: PMS

Practise Management System (PMS) is a comprehensive ERP (Enterprise Resource Planning) system which is fully developed by ENOVAX and deployed successfully at Nexia TS. Used by a few hundred staff in Singapore, it is a single platform to streamline the business processes, where all the major business processes are managed by the designed workflow to ensure proper operational efficiency and increase company productivity, including consolidation of all key KPI of the performance of the staff and individual department.

Sentosa Development Corporation: XMob

Awarded by Sentosa for the XMob project which transforms the whole tourist experience via interactive information kiosk and ticketing kiosk to allow Sentosa to manage their manpower more efficiently.

ST Synthesis

Contract awarded by ST Synthesis to develop the Singapore General Election operation system. The system kept track and consolidated the real time information of the setup / dismantle of the polling system island wide. This system allowed their staff to update / retrieve the key information promptly and efficiently, with comprehensive reports to allow backend admin staff to manage the progress of the setup promptly and effectively.

Golden Village (GV)

HSBC Prepaid Card Enhancement
System allows HSBC Prepaid Card owner utilize their prepaid card to purchase the movie ticket online.

VisaCheckout
Our solution involves the Integration with one of the world major payment gateway solutions - VisaCheckout to enable cinema patrons to purchase ticket easily via the new payment mode in GV.
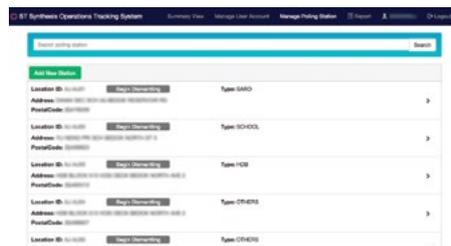

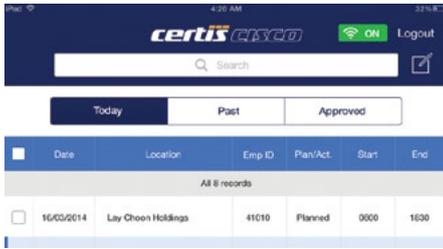

DBS - Golden Village iCard
One of the first in Singapore to introduce the eWallet facility to provide patrons with an alternative & new option to purchase movie tickets easily. This is a complete solution to allow patrons to check the balance / top up the money into the eWallet by using DBS credit card and purchase movie ticket in GV, a collaboration between DBS and Golden Village. ENOVAX is the key technology partner to facilitate and provide the solution for this collaboration.

Certis CISCO : eACS

Contract awarded by Certis CISCO to provide customized attendance monitoring/tracking of Marshalls at FORMULA 1 GRAND PRIX 2015 deployed at the Marina Bay circuit. This mobile application allows supervisor to work under offline mode and synchronize the data back to server when it goes online. Application is also designed with intelligent feature to automatically store records in the mobile device when no internet connection is detected.

Certis CISCO : Cashpoint+

Successfully implemented the CASHPOINT+ kiosk system for Certis CISCO. This is a F&B kiosk system which provides a comprehensive food ordering system and is fully integrated with the cash & coin machine.

Kando F&B Platform (NEC)

A F&B system that allows restaurant owners to manage their restaurants' menu, and generate transaction reports. This system is designed to support foods & drinks ordering from Kiosk Application, Mobile Application, website & KDS (Kitchen Display System).

Sentosa Fun Finder

ENOVAX was entrusted with the contract to develop an interactive "add on" feature (FUN FINDER) to further enhance Sentosa's first B2C online ticketing portal's capabilities. With Sentosa FUN FINDER, visitors are now able to enjoy recommendations from a selection of more than 20 attractions on the island to suit the visitor's area of interest via a dynamic back-end configuration solution developed by our company. This greatly deepens the visitor's experience and enjoyment.

Teckwah

Awarded by Teckwah to develop an online loyalty engine for one of their key clients - Wyeth Singapore. This is a complete online loyalty program to allow customer upload the receipt and capture the loyalty points. The redemption engine also enable customer to perform the redemption online. ENOVAX also developed a comprehensive backend module to facilitate the admin in generating key dynamic reports or perform operational support to the customer related to loyalty points.

XMOB SUCCESSFULLY DELIVERED TO SENTOSA

As more customers entrust ENOVAX with their IT enterprise solutions contracts, ENOVAX now makes it point to continuously increase its service delivery standards to meet varying business obligations.

Recently, ENOVAX successfully developed and delivered the XMob project to Sentosa Development Corporation (SCD), which helps to transform the user experience in a hassle-free and more interactive way. XMob comprises of 2 key components, 42 inch of Browsing screen to provide interactive information to the tourist and Ticketing kiosk to facilitate the easy purchase of tickets by tourists and visitors.

The Ticketing kiosk supports multiple cashless payment (credit card, NETS, FlashPay, PayWave) and ENOVAX provides a comprehensive administration module at the backend for the administrator to manage the contents and ticketing information. XMob helps Sentosa to enhance efficiency in manpower resource management, facilitates the purchasing experience and process, resulting in increased customer satisfaction.

A SATISFIED CUSTOMER - NEC

"Kando" is specially designed to support foods & drinks ordering from Kiosk Application, Mobile Application, Website & KDS (Kitchen Display System).

With more IT applications in life-style and entertainment industry, it becomes increasingly common to see all sorts of technological innovations which makes it more convenient for consumers in the market place. The F&B sector is one beneficiary of IT advancement.

Pleased with our performance, commitment and domain knowledge, NEC is partnering and awarding ENOVAX with more multi-million dollars projects. This adds creditability to the ENOVAX brand and positions the company well in ENOVAX's growth and expansion plans.

Riding the kiosk & mobile friendly wave, NEC awarded ENOVAX with an exciting contract to develop a F&B system, "Kando" that allows restaurant owners to manage their restaurants' menu, generate transaction reports and improve manpower and operational efficiency.

OSP MARKETING COLLATERALS

As Onestop Security Platform Pte Ltd (OSP) escalates to the next level of development, it becomes necessary for the company to showcase its capabilities and business scope through well conceived marketing materials. In this respect, we have produced a series of collaterals, from corporate brochure, marketing flyers, and posters to pull-up banner and website amongst others.

Concerted efforts are being made to promote the OSP security manpower portal to relevant stakeholders, including security agencies (SAS & ACSA), security service buyers, Government agencies, training schools, etc.

OSP Portal is fully supported by its associate company Enovax Pte Ltd (also the single largest shareholder of OSP) which leverages on its extensive IT domain knowledge and technology to empower OSP's capabilities in providing a more holistic array of security manpower solutions.

Pei Pei graduated from Nanjing University of Posts and Telecommunications in 2009 with a Bachelor of Computer Science and Technology. She is a highly creative, conscientious staff with positive attitude and willingness to learn new skills. Pei Pei is promoted to **Senior Graphic Designer**.

COMPANY ACTIVITIES

CHRISTMAS @ ENOVAX

In line with our corporate culture of promoting staff interaction, Christmas was celebrated with a twist on Friday, 18 December 2015. Apart from the sumptuous buffet spread of roasted turkey, honey-glace ham and Asian delights, we also celebrated 3 employees' birthdays where our CEO Erwin Foo charmed the trio and all staff with his violin music. Bonding games were also played to add to the festive cheer and joy.

"LO HEI" TO WELCOME 2016

To welcome the "Year of the Golden Monkey" and a bountiful year, a traditional "Yu Shen" (Tossing of Raw Fish Salad for good luck) luncheon was held on 22 February 2016. Staff were treated to a 9-course Chinese Lunch to mark the advent of another year of prosperity.

BIRTHDAY CELEBRATIONS

Staff birthdays are also celebrated to demonstrate that ENOVAX takes pride in its staff welfare program. A birthday cake is always specially ordered to signify the occasion with all participating in the singing and cake cutting ceremony.
